

BONALDO

Pebble, Pebble pouf

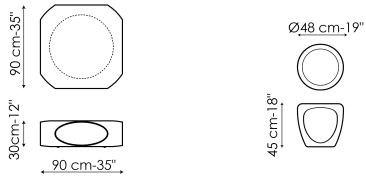

Characterised by a vibrant and almost futuristic design, obtained thanks to painstaking research on the details, shapes and colours, Pebble is an informal and multitasking furnishing element: in fact, in addition to being a coffee table, thanks to the side openings, it also functions as a container. Made in plastic material, it can be placed indoors as well as outdoors,

given its resistance to atmospheric agents. Pebble pouf is the seat of the same collection, with the same graphic spirit and futuristic design of the coffee table but is distinguished by the small and compact proportions that allow it to be inserted into any living environment.
